d. Dividends given to stockholders	0.00	PhP
e. Taxes, duties, and fees paid to government	46,118.00	PhP
f. Investments to community (donation)	0.00	PhP

The Corporation, who is primarily engaged in the port management and operation business, remains committed to its goal of becoming a recognized global leader in port and infrastructure development. The Corporation endeavors to build a portfolio of sustainable investments in port and infrastructure development driven by the technical excellence and industry experience of its people, creating shareholder value through strategic innovation, mindful of its social, economic and environmental responsibilities, as it remains to be dedicated to integrity, excellence, respect and honesty in all its dealings. As such, the Corporation is in constant lookout for possible Public-Private Partnership, Joint Venture, and/or other similar contracts with the government and other private entities.

The Corporation generates and distributes direct economic value through its administrative operations. The Corporation conducts its activities through maximization of available resources. It contributes to the expansion the economy through its

consumption of products and services available in the market. Suppliers and service providers are treated fairly through open communication for their concerns and engaging them through forums or activities.

The Corporation is likewise transparent with its dealings with the government and its stakeholders. The stakeholders are constantly apprised of any developments in the Corporation through transparent and timely reporting practices. The Corporation also publishes reports and disclosures as required under the applicable laws, designed to keep the general investing public abreast with the recent developments of the Corporation. Further, the Corporation conforms with local and national tax laws and regulations through the timely and accurate payment of all applicable taxes.

B. Procurement Practices

PROPORTION OF SPENDING ON LOCAL SUPPLIERS		
Disclosure	Quantity	Unit
Percentage of procurement budget spent on local suppliers	100	%

The Corporation procures all of its supplies and equipment from local sources. The Corporation believes that procurement from local entities is more advantageous to the Corporation due to the following reasons: a) accessibility of suppliers; b) availability of supplies; c) easier communication with the suppliers; and d) shorter delivery time. In addition, sourcing supplies from local entities serves as an avenue for the Corporation’s support to local businesses.

C. Business Ethics

TRAINING ON ANTI-CORRUPTION POLICIES AND PROCEDURES	
Disclosure	Quantity
Percentage of employees to whom the organization’s anti-corruption policies and procedures have been communicated to	0
Percentage of business partners to whom the organization’s anti-corruption policies and procedures have been communicated to	0
Percentage of directors and management that have received anti-corruption training	0
Percentage of employees that have received anti-corruption training	0

Echoing its core values of Integrity and Honesty, the Corporation has been consistent in being transparent with the government and its stakeholders.

While the Corporation has not formally implemented its anti-corruption measures due to operations limited to administrative functions, it commits to implement these policies and programs once the Corporation’s business operates at full-blown. Further, it shall conduct a continuous risk assessment to identify significant risks related to corruption.

As of 31 December 2020, there are no incidents of any corruption-related activities in the Corporation. As a manifestation of its continued commitment against any corruption-related activities, the Corporation shall ensure that its officers and business partners, both in the present and future, shall observe the same and comply with all applicable laws and regulations.

IV. MATERIAL TOPIC: ENVIRONMENTAL ISSUE

The Corporation acknowledges that being engaged in the business of port terminal management and operation has environmental impacts and consequences. However, the Corporation endeavors to minimize any and all environmental risk, such as water and air pollution, through the use of methodologies and processes which would alleviate environmental pollution. The Corporation shall likewise adhere to maximization of resources to reduce waste. Further, the Corporation has been compliant with all environmental laws and regulations and has recorded no fine or penalty for any violation of an environmental law or regulation.

In preparation for the Corporation’s resumption of its full-blown operations, the Corporation shall adopt energy saving measures. It shall also implement policies adhering to greener alternatives. Further, the Corporation shall ensure that its officers and employees shall comply with all relevant and applicable environmental laws and regulations.

A. Environmental Compliance

DISCLOSURE	QUANTITY	UNITS
Total amount of monetary fines for non-compliance with environmental laws and/or regulations	0	PhP
No. of non-monetary sanctions for non-compliance with environmental laws and/or regulations	0	PhP
No. of cases resolved through dispute resolution mechanism	0	PhP

The Corporation diligently updates its necessary environmental permits. The Corporation recorded no fines or non-monetary sanctions for non-compliance with environmental laws and regulations.

Notwithstanding the minimum impact of the Corporation’s operations in the environment, the Corporation still ensure that it operates with proper implementation of environmental laws. The Corporation looks at industry best practices to further reduce its carbon footprint.

V. MATERIAL TOPIC: SOCIAL ISSUES

A. Employee Management

Since the Corporation is not yet in full-blown commercial operations, it retains no employees in its own payroll. The Corporation has resorted to outsourcing its administrative, reportorial, and compliance requirements. Nevertheless, the Corporation ensures that the third parties to whom it outsourced its activities to are all compliant with all labor laws and regulations and said third parties implement healthy and safe working conditions.

The Corporation intends to hire the required manpower to support its operations as the business improves. The Corporation shall adopt measures to ensure equal treatment and opportunity to all prospective employees, regardless of age, sex, religion, and nationality.

The Corporation shall remain committed to maintain a work environment that is free from harassment and discrimination. Any unwelcome verbal, written, electronic or physical conduct that either denigrates or show hostility or aversion towards a person on the basis of race, sex, marital status, religion, age, disability, opinion or beliefs will not be tolerated.

B. Data Security

Data Security	
Disclosure	Quantity
Number of data breaches	0

At the height of advancing technology, the Corporation has shifted to paperless transactions by utilizing various software applications and electronic communication. Effectively, this shift resulted to lower administrative costs. However, the Corporation acknowledges that utilizing technology may make it prone to data breaches, leaks, and data theft. As such, the Corporation undertakes to implement security measures to ensure the integrity and confidentiality of all its information and data.

The Corporation likewise strictly implement the Data Privacy Act of 2012 and ensure that its business parties and contracts shall also strictly adhere thereto. The Corporation ensures that it is transparent in collecting and processing the data it obtains from third parties and protect the integrity and confidentiality thereof.

The Company intends to improve its data security systems by giving attention and effective treatment to every internet and external threats, integrating IT risks into its risk management structure, conducting regular and independent internal audit, assessing IT capabilities of third parties, and development of develop cyber incident response plan.

VI. UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

In September 2015, the United Nations General Assembly adopted the 2030 Agenda for Sustainable Development which is a universal call to action, to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity.

In response to the United Nations' Sustainability Development Goals, the Corporation commits to be socially responsible in all its dealings with its stakeholders and the communities it operates. The Corporation ensures that its interactions serve the environment and stakeholders in a positive and progressive manner that is fully supportive of our comprehensive and balanced development.

The Corporation has analyzed the potential negative impact of the 17 Sustainable Development Goals and has provided the management approach thereto:
